

# Capgemini Belgium ranked 4th in IT-trainings

*Published on May 11, 2009*

Capgemini Belgium was honored by Datanews for the budget we provide for it-trainings. We are ranked 4th place in the top 20 of the average training costs per employee in 2007. Datanews states: “In comparison with 2006, especially Capgemini takes a great leap forwards, with an average training cost per employee that more than doubled in comparison with the year before (4.890 instead of 2.021 Euros).”
